

UNDER COVER

Outboard Covers Australia have been selling made to order, fitted engine covers for the past six years to our friends Down Under and now they've launched Outboard Covers UK. They have over 650 design patterns to fit Yamaha, Honda, Suzuki, Johnson, Mercury, Mariner and Evinrude engines with covers for transports and storage as well as splash covers for when the outboard is in use. The covers are made from UV-resistant Polysoft, allowing the engine to breathe and preventing condensation and corrosion. Customers can even have the covers custom printed.

Price: £50 to £350
